

WHO ARE WE?

We were formed in 1997, with the express intention of offering an Industrial Automation and Controls Distribution service, with qualified Sales Engineers providing technical, product and application support.

WHAT DO WE DO?

Amon Electronics Ltd is an "Automation Solution Provider", specializing in Sensors, Panel Products, Process Controls Instrumentation, Machine Safety, Factory Automation, Electrical Power Measurement and Control, Motion Control, Panel Products and Vision Inspection System Applications.

We represent only highly recognized manufacturers of automation components such as Omron, STI, Murr Elektronik, Honeywell, Panasonic, Mechatronics, IMO, Mitsubishi and Fanuc.

We have strategic alliances with other manufacturers and distributors in Ireland and abroad offering competitive prices on SICK, Telemecanique, Siemens, Guardmaster, Turck Banner, Datalogic and Phoenix Contact enabling our team to find the solution you need.

Creative Solutions to Industrial Problems . .
